Date: 1947-1970
Format: photographic
Collection/Fonds: Handford Studio collection
Description Level: Sub-Series
Series: 4.1
Creator: A. L. Handford
Physical Description: approx. 360 4" x 5" index cards

Scope and Content:

Series: Handford Studio Portraits circa 1950 - 1960
Sub-Series consists of index cards that were used to record portrait sessions from approximately 1947 to 1970. During this time, several photographers were responsible for the studio including Thursa Stringer (from 1949 onwards) and Ed Handford Jr. who began working in the studio in 1955.

Cards were arranged chronologically by year. The name of the subject, where they lived and what type of portrait (eg. self, wedding etc.) appears on each card. These cards correspond to photographs that are arranged chronologically by year which are still in the original envelopes used by the Handford Studio.

PLEASE NOTE: Some of the negatives were purchased by clients at a later date. The index covers the photographic sessions that occurred on certain dates but do NOT necessarily represent what exists in the Handford collection today.

**Handford Cellulose Acetate Negatives**
Date: circa 1940 - 1950
Format: photographic
Collection/Fonds: Handford Studio collection
Description Level: Series
Series: 2
Creator: A. L. Handford
Physical Description: approx. 8085 negatives
Physical Condition: negs are in good condition.
Scope and Content: This Series contains the Cellulose Acetate negatives created by the Handford Studio between approximately 1940 and 1950. These negatives were created on a stable cellulose acetate base as opposed to the negatives created on Nitro cellulose (conventionally known as "Nitrate") which were chemically unstable. The negatives in this series are identified with the word "Safety" along one edge and on the original box to inform consumers that they were using a stable film base.

The box numbers in this listing refer to the original box the negatives were in. There is also an alphabetical listing created by the Studio.

The negatives have been removed from the original boxes, re-housed in acid-free envelopes and reboxed in original box number order. Not all boxes are present, some being destroyed over the years. Most negatives have the box number and identification of the client written on the edge.

Images contained in this Nitrate Series are almost exclusively portraits although there are a few other subjects such as prize cattle belonging to industrialist M. J. O'Brien and group shots of RCI student council, graduating classes etc. Most portraits were taken in the Handford studio, although there are some examples of off-site group shots taken at family reunions, nursing graduates outside Renfrew Victoria Hospital, etc.

The number of surviving nitrate negatives per box varied as did the condition of negatives within specific boxes. Each Nitrate Negative was scanned to create a positive image and is described at the item level in the Inmagic database. If multiple images of a certain subject appeared within a box, the subject is described only once in the database. However, multiple images of the subject will appear as they are all "attached" to the single description.

The following is a list of Nitrate negatives created on an excel spreadsheet at the time of scanning. Names or box numbers contained in this list can be used to search the database for the image at the item level. Details include dates if found as well as the Town where the person came from such as Cobden, Eganville etc. In some images, evidence of deterioration can be seen.

Date: 1915-1984
Format: textual records
Collection/Fonds: White Lake Women's Institute fonds

**Physical Description:**

**History / Biography:**
The White Lake Women's Institute (part of Renfrew South District) was formed on June 21, 1915 in the Orange Hall at White Lake as "an organization for personal growth and community action ... of rural women from farms, villages, and towns". It has a W.I. Hall in White Lake, the only branch in the district with its own hall. Its objectives are the following: 1. to assist and encourage women to become more knowledgeable and responsible citizens; 2. to promote and develop good family life skills; 3. to help discover, stimulate and develop leadership; and 4. to help identify and resolve needs in the community. The White Lake Women's Institute is a branch of a larger organization known as the Renfrew South District Women's Institute; this District forms part of the larger Federated Women's Institutes of Ontario (FWIO); the FWIO, in turn, forms part of the Federated Women's Institutes of Canada (FWIC); and the FWIC represents the final link to the Associated Country Women of the World (ACWW). These Institutes have often been referred to as "the rural woman's university, a place for women to gather and learn about things that interest all of us".

History / Biography:
The White Lake Community Cemetery was originally established as a Presbyterian Cemetery (later United Church) but as its name indicates it is now a Community Cemetery for all denominations. It is located in the Township of McNab/Braeside at Concession 3, Lot 10.

According to the records, the first burial was of Elizabeth Hill (1791-1823) which would date the cemetery at 190 years as of 2013. The White Lake Cemetery held the 1st decoration service in 1921 with Reverend McNaught presiding.

Burials before 1800 were:
Walter Stirling 1790-1869
J. A. Robertson 1792-1874
John Cunningham 1793-1870
Colin Campbell 1794-1881
Isabella Douglas Campbell 1794-1859

Originally, the lots were very large (measuring 10 feet by 20 feet) to accommodate large families. The plots were reduced in size in later years. The cemetery is divided into 16 Sections with Section 11, 12 and part of 10 reserved for parking on Decoration Day. The White Lake Cemetery Vault was dedicated to the memory of John McRae and his wife Jane Goth by his family in 1957. In 2000, an additional 300’ x 290’ was purchased from Mr. & Mrs. Kenneth Fraser of White Lake which brings the total size of the cemetery to 9 acres. This land is being slowly improved, including the removal of trees, stumps and rocks, in preparation for use in upcoming years.

As of 2013, the cemetery committee has noticed an increase in cremations and increased strain on the resources of the volunteers who endeavour to keep up with the maintenance of the cemetery grounds. For many years, Lorne Deacon of White Lake Village was caretaker of the cemetery. In 1995, Olga and Cecil Lewis transcribed the cemetery stones and published an index to the White Lake Cemetery. An Amalgamated Index was produced by Philip Durrett in 2000 as a project of the Amnpor McNab/Braeside Archives.
